All New Condo and Home Renovation Service Opens in Bangkok

Are you looking for an experienced condo renovation company or a reliable company to redecorate your home, replace a kitchen, redesign or extend your property?

Well... have we got the company for you. A brilliant new home and condo care service has just opened in Bangkok; situated conveniently in Sukhumvit Soi 50 (not far from the On Nut Skytrain station). This splendid new service has just launched its company web site; check out www.bangkokhomecare.com for further details. I met the owners David and VG, saw their work and have to say....was very impressed. Read on for further details on how to renovate, extend, redesign, redecorate or remodel your condo or house. You will be amazed by the low prices and the extremely high quality of the work. They offer free quotes, loads of advice and fabulous ideas.

Two long term residents of Thailand and construction experts have just teamed together to form G & L Company Limited; a combination of over 40 year's construction experience both in Thailand and in Europe. David Knowles formerly of the UK has a most extensive career in the construction and renovation industry; David worked for many years for award winners Berkeley Homes in the UK as both construction advisor and inspector. His eye for detail is acute to say the least and knowledge of construction second to none. Co-Director VG Kavoor is a Thai resident speaks fluent Thai and has a career equally as bright having been involved in construction for over 20 years in Thailand. Together they are a team to be reckoned with and there are certainly no better people to renovate redecorate or extend your condo or house. These guys really know what they are doing and guide you every step of the way.

News travels fast and they already have many condo projects on their books. They are just completing a super renovation of a 3 bedroom condo in Sukhumvit Soi 6; finishing the interior design and works for a brand new condo purchased as a shell in Oleander on Soi 11; working on seven units in the Trendy condominium complex in Soi 13; nearing completion of a 3 bedroom condo at President Park in Soi 24 and finished a 360sqm 3 bedroom condo in Soi 63. Whether it's creating a beautiful interior for a new condo in a new block, remodeling an older condo, installing new kitchens and bathrooms, laying floors or building beautiful handmade wardrobes, these guys do it all. From home extensions to complete renovations, bangkokhomecare.com can help you.

During times of recession many people switch to renovating and improving their existing properties and this is where bangkokhomecare.com can be so helpful. With their many years of experience, understanding of quality levels and genuine appreciation of what can be done David and VG provide a much needed service. Through their vast experience they are able to offer sensible advice, help you make decisions and suggest ways to save money if needed.

In addition they are used to dealing with the management companies and Juristic organizations of condominium projects; an area which can require some degree of flexibility and time management, as many condo buildings have varying restrictions on when works can be carried out. This can cause many problems for contractors as time scheduling is important to both customer and contractor. G & L are used to this and understand its importance; but at the same time realizing the most important aspect is completing a renovation you the client are happy with. This all takes time and patience but in bangkokhomecare.com's case they are always one step ahead of the rest.

If you go to www.bangkokhomecare.com on the internet you can browse some of the galleries and see images of works completed as well as numerous examples of design ideas. It is super web site and one I highly recommend if you are looking for anything to do with renovation in Bangkok. This applies equally to individuals buying a new condo as a shell, an old condo that needs updating, a home that needs an extension or redecoration, or even investors or companies with multiple units they needs renovating. This much needed new service is now available in Bangkok. Check out www.bangkokhomecare.com for further details.
